...

MARSFX

# Future Mars Coin is a Token bep 20

Also known as MARSFX, is a community and investor driven token with many future projects and partnerships aimed at helping foster the idea of smarter (self-sustainable) cities. The purpose of Future Mars Coin is to unite smart cities and cryptocurrency, contribute to a sustainable and responsible future.

## *Cripto Community expansion*

THE FUTURE MARS COIN AIMS TO CREATE ONE OF THE BIGGEST AND STRONGEST COMMUNITIES IN FAVOR OF SMARTER CITIES READY TO ACCEPT THE FUTURE, BEING SELF SUSTAINABLE AND REDUCING THE USE OF NATURAL RESOURCES. TOGETHER WE GET STRONGER!

*Safe For Future*

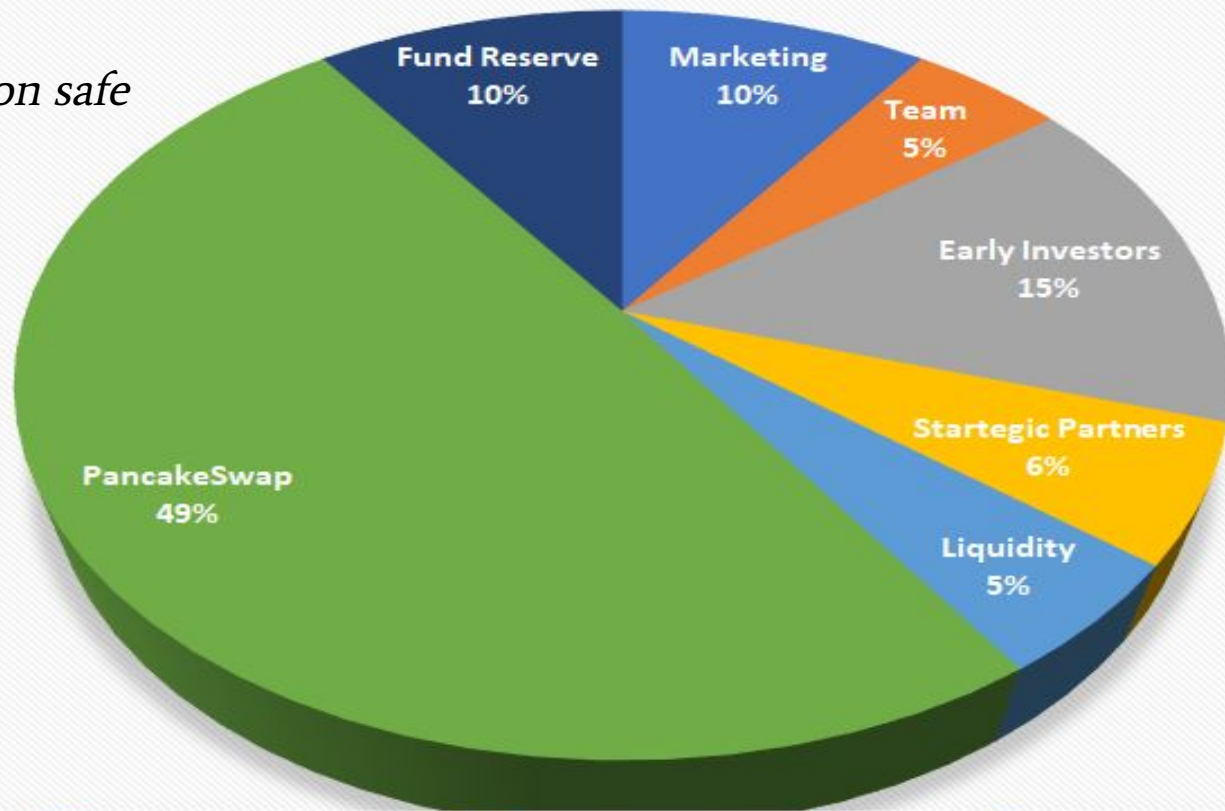

*10% off all MARSFX coins will be set aside  
for future investments in the smart cities  
transition process*

## Token Distribution

*Distribution safe*

■ Marketing ■ Team ■ Early Investors ■ Strategic Partners ■ Liquidity ■ PancakeSwap ■ Fund Reserve

# WHATS IS MARSFX ?

**Secutity:** Transaction are secure, person-to-person, there is less use of intermediaries and therefore less data theft.

**Speed:** Based on a third-generation blockchain, transaction performed with Traxalt are immediate. They usually take minutes or even seconds.

**Immutability:** Data used in BlockChain Tecnology is encrypted, so it cannot be modified or altered.

**Accessiblity:** Users can access from anywhere in the world and from any device with internet access.

**Transparency:** User can check the Status or their transaction through a block explorer that shoe thes transaction in real time

**Lower Cost:** transaction costs are lower compared to other financial solution.
